

AIZAZ AHMED

Full-Stack Developer (Next.js · React · Supabase)

Karachi, Pakistan | aizazahmed2004@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full-stack developer specializing in Next.js, React, and Supabase, with hands-on experience shipping a production e-commerce platform from concept to deployment. Skilled in building responsive, database-driven web applications with authentication, real-time data, and admin tooling. Combines 3+ years of teaching experience with self-directed mastery of modern web development, bringing strong communication and problem-solving skills.

TECHNICAL SKILLS

- Languages: JavaScript, TypeScript, Python, C#, SQL
- Frontend: React, Next.js, HTML5, CSS3, Tailwind CSS
- Backend & Database: Supabase, SQL, Node.js
- Tools & Platforms: Git, GitHub, Vercel, VS Code
- Other: Embedded Systems (Arduino), Data Analytics (Python)

PROJECTS

Bright Mart — Full-Stack E-Commerce Platform (Next.js, Supabase, Tailwind CSS, TypeScript, Vercel)

- Built and deployed a multi-category e-commerce platform end-to-end, including product catalog, cart, checkout, and Cash-on-Delivery order flow, live in production at [bright-mart-gold.vercel.app](#).
- Implemented user authentication and a custom admin dashboard enabling non-technical store owners to manage products and inventory without code.
- Designed a normalized PostgreSQL schema in Supabase to handle products, orders, and categories.
- Developed a fully responsive UI with Tailwind CSS and TypeScript, currently iterating on UX improvements ahead of public marketing launch.

EXPERIENCE

Private Tutor — Mathematics, Physics & Computer Science

Self-Employed, Karachi, Pakistan | 2021 – Present (3+ years)

- Delivered individualized instruction to students (Classes 6–12), adapting teaching methods to different learning styles and paces.
- Built structured lesson plans and practice materials across three subjects, strengthening student comprehension of core Math, Physics, and CS concepts.
- Developed strong communication, patience, and time-management skills through consistent, long-term one-on-one and small-group instruction.

EDUCATION

Bachelor of Science in Computer Science

Iqra University, Karachi | Expected Graduation: 2027 | CGPA: 3.3/4.0

- Relevant Coursework: Data Structures & Algorithms, Database Systems (SQL), Object-Oriented Programming, Software Engineering

ADDITIONAL INFORMATION

- Languages: Urdu (Native), English (Fluent)
- Soft Skills: Communication, Problem-Solving, Time Management, Adaptability, Self-Directed Learning
